The Waltham Public Library is the union of three libraries. (1) The Waltham Social Library, founded in 1798, and the earliest Waltham library, was given to the Unitarian Society and later, in 1865, was presented to the town. (2) The early Boston Manufacturing Company's Manufacturers' Library was given to the Rumford Institute Library, which in turn offered all its books to the town in 1865. (3) The Agricultural Library of the Waltham Farmers' Club was presented to the town in 1874. The Public Library was first housed, 1865, in the Bank Building on Main Street. In 1879 it was moved to the corner of Charles and Moody Streets (Welch Block). In December 1915, the Library was moved to the present building, which is the gift of a Waltham citizen, Francis Buttrick. The cost of the building was \$124,000.

A Branch Library was opened in a second floor room at the corner of Moody and Taylor Streets, in November, 1919. These quarters have proved inadequate for the service of South Side readers; so, after an unsuccessful attempt to secure legislative authority for a new building, the problem has been solved for some years to come through the adaption of a section of the new South Junior High School building to library uses. This new location, at the corner of High and Moody Streets, is now in use. It is thoroughly equipped and supplied with an increased number of books and magazines.

There are now about 70,000 volumes in the Library. 226 periodicals are received. There is also an excellent collection of pictures on every subject, arranged in classified form, which may be taken from the building. The Library undertakes to help all in supplying information and in looking up difficult reference questions, when requested, either in person or by telephone.

The circulation in 1923 was 191,566 volumes, an average of 5.8 books per capita. The City appropriates about \$32,000 a year for the support of the Main Library and the South Side Branch. There are in addition three endowment funds for the purchase of books: The Lowell Clark Fund of \$5,000, the Enos T. Luce Fund of \$1,000 and the Jacob Whitney Fund of \$1,000, which yield about \$325 a year.

## DIRECTORY OF STREETS

COPYRIGHT, 1924, SAMPSON & MURDOCK CO., BOSTON, MASS.

**EXPLANATION**—In the House Directory residences and places of business, designated by their street numbers, are arranged in numerical order upon their respective streets, those upon the right side of a street appearing first, followed by those upon the left side

Names are given against their proper street number, and when a house is not numbered a cipher is substituted for the street number

Boarders are denoted by the abbreviation b, and business men at their place of business are denoted by the street number printed in heavy-faced figures. Names of all others are those of housekeepers

When a person's place of business and residence are at the same place, it is indicated by the use both of heavy-faced figures for the street number and of the abbreviation h at the end of the line

Names of cross streets appear at their place of intersection

After the name of a street the word STREET is omitted; the words Newton, Lincoln and Lexington, when referring to city or towns of those names, are followed by the word LINE; when not followed by the word LINE they are names of streets

\*Streets which have not been accepted by the city are indicated by an asterisk

\*\*Streets, a part of which have been accepted and a part remains unaccepted, are indicated by two asterisks

**ABBREVIATIONS**—av, avenue; b, boards; ct, court; E, east; fr, from; h, house; N, north; nr, near; pl, place; r, residence in rear; r. place of business in rear; rd, road; S, south; sq, square; ter, terrace; W, west; wd, ward. For other abbreviations see Index to Contents

## Every Wasted Minute Costs You Money

Whether it's your time or that of an inexpensive clerk that is wasted by using an out of date directory, the loss is yours.

In the course of a year the time wasted usually costs far more than the price of a new directory.

Misdirected parcels or messages cause expense and annoyance.

Cut out this leak. Order a new directory at once. It will pay you bigger dividends for the money invested than you realize.

## *The objects of the Association are as follows:*

**First:** To improve the directory business by the interchange of ideas, and by the exchange of competent employees.

**Second:** To protect the public against fraudulent advertising schemes operated under the name of directories and to drive the promoters of such out of business.

**Third:** To provide permanent and continuous employment for honest and faithful directory canvassers.

**Fourth:** For the mutual advancement of the established and prospective interests of all who may become members of the Association.

*September, 1924*

## *How the City Directory will help you*

Some people regard the City Directory as merely a big book that cannot concern or be of any use to them, personally.

If they realized what it contains, and how it would answer many little questions that come up every day they would use it in their personal as well as business affairs.

**Well, now—doesn't it concern you?** It has your name, business and address correctly listed, where your friends looking for you will find it.

It has this same information about your friends, and anyone else in the city you may be interested to look up.

It has complete information about the business houses of the city, telling who sells what, and where. It has detailed accounts of progressive houses, who realize they will logically be looked for in the "Selling Section."

It tells how all the streets run, gives numbers at corners; the clearest map of the City; Buildings, Government, Societies, and a wealth of facts about the City that can only be appreciated by glancing at the Index.

You will be repaid for a little time spent in finding out how to use this book full of "Who and Where" information; repaid in convenience, in accuracy, and in time saved in your everyday affairs. **But be sure you use the latest** as an old edition will mislead you.

### *The First City*

Where watches were first successfully manufactured in the United States.

Where kerosene oil was first refined and made available for household usage.

Where chalk crayons were invented and first made.

Where all the operations of cotton cloth were first performed under one roof.

Where the first single Board of Government in Massachusetts was adopted.

WALTHAM is 9 miles West from the port of Boston, situated on the Charles River, and served by the Boston and Maine Railroad, with the Hoosac Tunnel Division, Massachusetts Central Division, Waltham Branch line and seven lines of Street Railways.

The City has exceptional business and manufacturing facilities.

WALTHAM bespeaks of a numerical population of 31,000 but a potential population of 70,000 as it is the trading and working hub of a wheel that has 12 suburban municipal or township spokes in its circumference of commerce.

### THE CHAMBER OF COMMERCE

Through the public spirit and splendid co-operation of its citizens, Waltham maintains an active Chamber of Commerce, the slogans of which are:—

*Service To and For the Community.*

*Civic Betterments, Industrial Growth, Bigger Business.*
